

Focus Photography Club

At Focus Photography, we prioritize community over all else. This website is where we post events, host meetings and sign up to join. Whether you are an elite photographer or a beginner, you are welcome here.

About Us

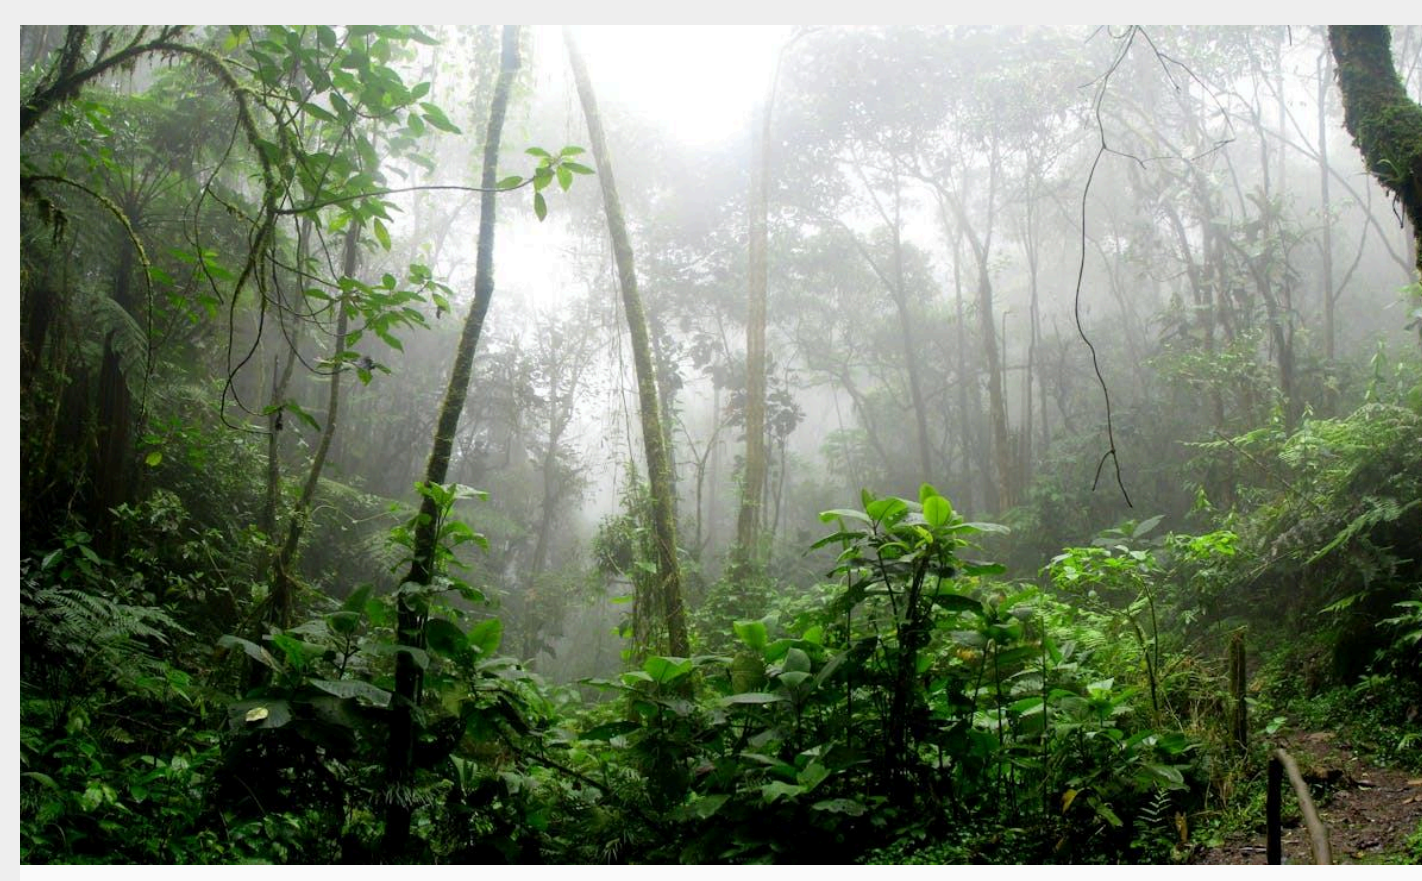

Focus Photography started as a small group of friends who loved taking photos. We would actively seek beautiful locations to photograph and meticulously plan every detail. This small hobby group quickly grew from just 4 people to 34 in just 4 months.

Now with 34 members, from professionals to amateurs we now have much more to offer. We now have the opportunity to engage in meetings, participate in events and much more.

Some new additions we have to this club include a darkroom for film photography, and we have secured some guest speakers!
